Ada Lovelace

ada.lovelace.dev@example.com | Berlin, Germany | Github | LinkedIn | Blog

PROFESSIONAL SUMMARY

Product Engineer with over 6 years of experience who ships quickly and owns systems end-to-end. Skilled in leveraging profiling, tracing, and careful benchmarking to improve efficiency, streamline debugging, and optimize workflows, while validating outputs for accuracy and reliability.

EXPERIENCE

Staff Engineer, Acme Analytics — Jul 2022 – Present

- Led the payments rewrite, cutting settlement latency from 4.1s to 0.8s.
- Maintained an open-source parser at github.com/someone-else/fast-parser.

Engineer, Old Co — Mar 2019 – Jun 2022

- Built the ingestion pipeline handling 1.2M events/day.

SKILLS

Go, TypeScript, PostgreSQL, SQLite, Playwright, distributed tracing.
